INTRODUCTION

Simrad is one of the world's largest manufacturers of marine electronics and offers a complete range of high quality systems including autopilots, instruments, radar, VHF, dGPS, chartplotters and echosounders.

Purpose of this Document

This document is intended to show the typical recommended electronics systems for the most popular leisure boats. These are guidelines only and the packages can be adjusted to suit particular requirements. For further information, please refer to the Simrad Yachting Catalogue and product brochures.

Worldwide Support

Buying from a worldwide manufacturer also means that sales and service is available throughout the world. Wherever and whenever your customer goes boating they will be able to talk to one of our sales and service partners and be guaranteed fast and reliable service.

Quality and Reliability

Simrad has built its name on products which are innovative, easy to use and totally reliable, whatever the conditions. We develop and build all our leisure products on the same principles and to the same exacting standards as our sophisticated electronics systems for the demanding commercial shipping and fisheries markets.

OPTION - CP31 CHARTPLOTTER

- SimNet™ single cable high speed network bus
- 6in colour display
- NMEA interface to instruments, radar or autopilot
- North Up, Head Up or Nav Up modes
- True or Relative Motion

OPTION - TP32 TILLERPILOT / WP32 WHEELPILOT

- SimNet™ single cable high speed network bus
- Powerful drive, excellent course holding
- Easy to operate
- Steer to Compass, Steer to Wind, Steer to GPS
- Hand remote option

IS12 INSTRUMENTS

- SimNet™ single cable high speed network bus
- Combi Speed / Depth display (standard)
- Analogue Wind display option
- Multifunction Data repeater option
- Remote control option

OPTION - RS82 VHF RADIO SYSTEM

- SimNet™ single cable high speed network bus
- Full function handset control
- Dual station capability
- Full DSC Class D functionality
- Separate station loudspeaker

OPTION - CP31 CHARTPLOTTER

- SimNet™ single cable high speed network bus
- 6in colour display
- NMEA interface to instruments, radar or autopilot
- North Up, Head Up or Nav Up modes
- True or Relative Motion

OPTION - AP25 AUTOPILOT SYSTEM

- Mini gyro rate compass recommended
- NMEA0183 and NMEA2000 compatible
- Follow Up and Non Follow Up Modes
- Optional thruster interface control
- AWS : Advanced Wind Steering system

IS12 INSTRUMENTS

- SimNet™ single cable high speed network bus
- Combi Speed / Depth display (standard)
- Analogue Wind display option
- Multifunction Data repeater option
- Remote control option

OPTION - RS82 VHF RADIO SYSTEM

- SimNet™ single cable high speed network bus
- Full function handset control
- Dual station capability
- Full DSC Class D functionality
- Separate station loudspeaker

A Simrad GPS display unit with a monochrome screen showing a map and various data points. The screen displays a depth of 4.07, speed of 25.76, and other metrics. The unit has a circular control knob on the right side.

- SimNet™ single cable high speed network bus
- 6in colour display
- DS33 dual station display (sunlight viewable)
- North Up, Head Up or Nav Up modes
- True or Relative Motion

- Mini gyro rate compass recommended
- NMEA0183 and NMEA2000 compatible
- Follow Up and Non Follow Up Modes
- Optional thruster interface control
- AWS : Advanced Wind Steering system

- *SimNet™ single cable high speed network bus*
- *Combi Speed / Depth display (standard)*
- *Analogue Wind display option*
- *Multifunction Data repeater option*
- *Remote control option*

- SimNet™ single cable high speed network bus
- Full function handset control
- Dual station capability
- Full DSC Class D functionality
- Separate station loudspeaker

OPTION - CX34 DUAL STATION NAVSTATION

- 7in colour Sunview split screen display
- Full function Chartplotter and dual range Radar
- Radar chart overlay
- North Up, Head Up or Nav Up modes
- Dual Station display

OPTION - AP25 AUTOPILOT SYSTEM

- Mini gyro rate compass recommended
- NMEA0183 and NMEA2000 compatible
- Follow Up and Non Follow Up Modes
- Optional thruster interface control
- AWS : Advanced Wind Steering system

IS12 INSTRUMENTS

- SimNet™ single cable high speed network bus
